## Experience

### TD Bank Financial Group

Toronto, ON

Software Engineer Co-op, DevOps Cloud Engineering Team

May - Aug 2022

- Worked on projects to support new client applications on the cloud infrastructure
- Assisted with development team members to create and maintain an automated CI/CD pipeline process
- Identified technical problems and reviewed code daily to deploy bug fixes using JIRA

### Ontario Ministry of Government and Consumer Services

Toronto, ON

I&IT Web Developer Co-op, Cyber Security Division

May - Dec 2020, Jan - Apr 2022

- Developed and tested web applications using ASP.NET Core MVC (C#) and a SQL server database
- Utilized MS Azure for cloud infrastructure and tracked technical issues using Azure DevOps
- Maintained an app that hosts business analytics to help 1000+ daily users make informed and strategic decisions

### Flybits Inc

Toronto, ON

Front-end Developer Co-op, Engineering Team

May - Aug 2021

- Designed, developed, and tested front-end applications with React, TypeScript, and other frameworks
- Worked across 2-4 agile squads to help develop and maintain company projects, using JIRA to track progress
- Independently learned Flybits' tech stack (React, TypeScript, Sass) in 1.5 weeks

## Projects

### Discover Asian Dramas

GitHub Repo: [kdrama](#)

Languages: HTML5, CSS3, React

[Live Demo](#)

- Find various Asian dramas by searching, filtering by language or year, and sorting the results
- Learned various React concepts: Components and Props, State and Lifecycle, React Router, and async functions
- Utilized The Movie Database (TMDb) API to fetch drama information and recommendations for each drama
- Available on: <https://dramas.jackly.ca>
